introduction

ABOUT ME

My name is Liyabona Ngece. I am currently a third year student at Cape Peninsula University of Technology. I am an aspiring UX/UI designer. I believe that I have a good eye at detailing as well as creating. I enjoy art work, I love the idea of creating and designing, it clears my mind. This portfolio will cover all that I have done and will give you a brief description of all my work.

POSTER DESIGNS

This design was inspired by my brothers wedding that recently occured. This design has soft tones as well as typography that makes it easy for the invitees to read what is being said.

POSTER DESIGNS

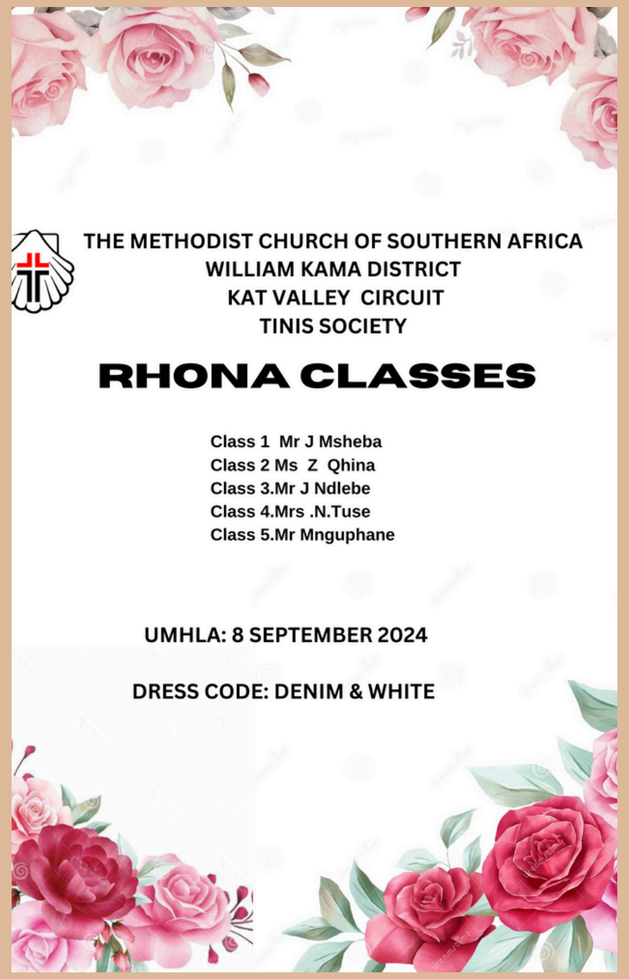

This first poster I made for someone who recently just opened a car wash and wanted to add their food menu on their page.

This second poster is a wedding program I recently made for my brothers wedding. I like using minimal color and fonts for such so that it can look simple and elegant too.

This final poster I made for my moms church. Since the event was during September, spring season, I decided to add some color by adding flowers as my boarder which represent Spring.
